

Philippines

- [NDRRMC](#) reported 11 incidents resulting from the both tropical storms. This resulted in a total of 40,253 families or 162,007 persons being affected.
- [DROMIC](#) has reported that 858 families or 3,128 persons are currently staying in 42 evacuation centers in Regions III, National Capital Region, CALABARZON and MIMAROPA.
- Southwest Monsoon (Habagat) is enhanced by [Tropical Depression 12 \(Inday\)](#) and [Tropical Storm Son-Tinh \(Henry\)](#) bringing heavier rain to the northern region of Philippines. Tropical Storm 12 (Inday) has moved northwards without signs of intensifying into a tropical typhoon.
- 152 houses were damaged; of which, 8 were totally damaged and 144 houses were partially damaged due to the effects of the Southwest Monsoon
- Keep updated on the weather conditions on [PAGASA's social media](#)

Viet Nam

- [NCHMF](#) reported that the Tropical Storm will decrease in intensity to a Tropical Depression after landfall in Thanh Hoa and Nghe An provinces. It is forecasted that in the next 12 hours, the tropical depression will move northwestward, weakening into a low pressure area and dissipating over upper Laos.
- [CCNDPC](#) has reported that heavy rains flooded the coastal areas in the provinces from Nam Dinh to Ha Tinh.

Lao PDR

- [Department of Meteorology and Hydrology](#) forecast expects heavier rainfall between 19 and 20 Jul 2018 in the north-western region of Lao PDR.

Other sources

- Status of the river monitoring system is also available on [Mekong River Commission's portal](#).
