9	28 June - 1 July 2018	<b>Indonesia, Mount Agung Eruption (Update)</b> <a href="http://adinet.ahacentre.org/reports/view/1016">http://adinet.ahacentre.org/reports/view/1016</a>

## Regional Summary (Week 26)

- Recorded events in Week 26 were classic example of two sides of hydro-meteorological disasters: too much water and less water.
- On one side, southwest monsoon caused flooding in Philippines and Sulawesi Island of Indonesia. Afterwards, threat of TS Florita in Philippines has been cancelled on 1 July 2018 ([NDRRMC](#)). Similarly, north side of Myanmar and Viet Nam as well as Singapore and Belitung Island (Indonesia) also experience flooding. On the other side, drought is affecting more than 97,000 people in Central Java and Yogyakarta provinces.
- Increased activities of Mount Agung, Bali, Indonesia were also observed. In effect, three villages in Karangasem Regency were evacuated, three airports nearby ceased its operation on 29 June 2018 and 446 flights were cancelled. In total, around 450 thousands people were affected. Mount Agung alert status maintained at Alert Level III / Watch ([PVMBG](#)).
- Mount Anak Krakatau, in between Java and Sumatra islands, also increased its activities on 23-26 June 2018 ([PVMBG](#)). There is no disruptions to daily life of the people.
- In Philippines, two earthquakes registered  $\geq$  M 4.5 with felt intensity of II-IV MMI ([PHIVOLCS](#)); and in Indonesia five earthquakes registered  $\geq$  M 4.5 with felt intensity of II-III MMI ([BMKG](#)). No casualties and damages reported by earthquakes in both countries during Week 26.
- From 1 July 2018 onward, wet weather will continue to prevail over the ASEAN region and is expected to persist over the next few days. In addition, as TS Prapiroon dissipates, winds over the region are forecast to gradually weaken ([ASMC](#)).
- All disasters occurred in Week 26 were within the capacity of respective ASEAN Member States.

## REGIONAL TALLY

Affected population: **557,920\***      Affected families: **124,600\***

\*AHA Centre's estimation based on total number of deaths, injuries and IDPs reported by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.

### DATA SOURCE

Detailed information of each disaster and emergency situation are available at: <http://adinet.ahacentre.org/reports>

AHA Centre - Disaster Monitoring & Response System (DMRS); Pacific Disaster Center (PDC Global);

ASEAN Specialised Meteorological Centres (ASMC);

Indonesia: BNPB, BPBDs of affected municipalities, BMKG, BPS, PVMBG-ESDM;

Philippines: NDRRMC, DSWD, PHIVOLCS, PAGASA; Singapore: PUB; Myanmar: DDM, DMH;

Viet Nam: CCNDPC / VDMA; Various news agencies

### DISCLAIMER

The AHA Centre was established in November 2011 by the Association of Southeast Asian Nations (ASEAN) Member States to facilitate cooperation and coordination among Member States, relevant agencies of the United Nations and international organisations in disaster management and humanitarian assistance.

This update consists of significant natural disaster events that occur in ASEAN Member States, including Brunei Darussalam, Cambodia, Indonesia, Laos PDR, Malaysia,

Myanmar, Philippines, Singapore, Thailand and Viet Nam. The disasters recorded include Drought, Flood, Earthquake, Tsunami, Volcano, Wind, Landslide and Storm.

The use of boundaries, geographic names, related information and potential considerations for response are for reference, not warranted to be error free or implying official endorsement from ASEAN Member States.
