

S/N	Date	Country, Disaster Log and Key Updates
1	15 Jan 2019	Indonesia, Flooding in North Sulawesi http://adinet.ahacentre.org/reports/view/1400
2	16 Jan 2019	Indonesia, Flooding in Central Aceh http://adinet.ahacentre.org/reports/view/1399
3	19 Jan 2019 - ongoing	Philippines, Tropical Depression Amang http://adinet.ahacentre.org/reports/view/1398

Regional Summary (Week 3)

- Hydro-meteorological hazards composed all reported disasters, but geophysical hazards have reported activities in Indonesia and the Philippines.
- Two (2) flooding events occurred in Indonesia, while the Philippines has ongoing operations due to a tropical cyclone.
- A total of nine (9) earthquakes of M5.0 and above were reported this week ([BMKG](#) and [PHIVOLCS](#)).
- Volcanic activities were detected in Mt Anak Krakatau, Mt Merapi, and Mt Sinabung in Indonesia. There were neither explosive nor effusive eruptions, except for Mt Merapi where effusive eruption in the form of low-speed lava dome growth were observed.
- Mt Agung erupted on 19 Jan at 0245hrs (UTC+7). The explosive eruption was accompanied by a sectoral launch of incandescent material out of the crater towards the south-southeast slope as far as about 300-400 m from the edge of the crater.
- Volcanic activities were detected in Mt Kanlaon and Mt Mayon in the Philippines. Alert Levels 1 and 2 were raised respectively, and entry into the respective 4-kilometre and 6-kilometre radius Permanent Danger Zones are recommended to be avoided.
- ASEAN Specialised Meteorological Centre ([ASMC](#)) Seasonal Outlook expects the Northeast Monsoon to prevail until March. Dry conditions are expected to persist over the northern region. While generally rainy weather is expected in the southern region, although there could be occasional brief periods of dry and warm weather.
- Travellers to volcanic areas are advised to take note of local government advisories before ascending and evacuation notices in high-risk areas.
- All reported disasters were within the coping capacity of respective member states.

REGIONAL TALLY

Affected population: **7,992*** # Affected families: **2,049*** # Displaced: **438***

*AHA Centre's estimation based on total number of deaths, injuries, affected population, and IDPs reported/confirmed by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.
