## Philippines

- The Philippine Institute of Volcanology and Seismology ([PHIVOLCS](#)) reported refinements to previously provided information. The earthquake is shallower than initially reported, at only 10-km beneath the surface. Reported intensities also increased into as high as Intensity VII.
- Current reports from the National Disaster Risk Reduction and Management Council ([NDRRMC](#)) indicate a total of 29 damaged structures/infrastructures, including the Clark Airport.
- After the quake, Search, Rescue, and Retrieval (SRR) operations were quickly conducted by relevant authorities in Chuzon Supermarket in Porac, Pampanga after the building collapsed, resulting to casualties (photos on the right).
- The Department of Social Welfare and Development ([DSWD](#)) reported four (4) evacuation centres are currently being used to house 245 displaced families.
- The National Focal Point of the Philippines visited areas in Central Luzon today to assess ongoing response operations and coordinate with local disaster management authorities.
- AHA Centre is continuously monitoring the event for significant developments.
