

Flooded area in southern part of Lao PDR during Aug-Sep 2019 by [SWD](#)

EFFECTS

* Estimations are based on data reported/confirmed by the National Disaster Management Organisation of Lao PDR and other verified sources

Lao PDR

- The Prime Minister of Lao PDR, Mr. Thongloun Sisoulith, called for an emergency meeting and gave orders to relevant agencies to quickly assist affected areas.
- The Government has deployed personnel and volunteers to evacuate affected people to safe zones and provide relief.
- To date, the following has already been mobilised by the Government to aid in the provision of relief to affected people:
 - 35 rescue boats
 - 2,200 packs of drinking water
 - 100 family tents
- Local Disaster Management and Control Committees in the provincial and district levels of Lao PDR are carrying out relief operations.
- Situations are still under the response capacities of the Government.
- The AHA Centre already requested for emergency satellite observation and derived data from Sentinel Asia, to estimate the extent of flooding due to the combined effects of the back-to-back tropical cyclones and the Southwest Monsoon in Southern Lao PDR.
- AHA Centre will continuously monitor the situation, and will issue updates should there be any significant development.

NEEDS:

- Food: canned fish, drinking water, instant noodle, rice
- Rescue boats and life jackets
- Non food items: family kits, personal hygiene kits, kitchen kits, sleeping kits, mosquito nets, jerry cans
- Cash support for the operation
